Deccan College 2nd May 1881

SIR

I have the honour to submit my report on the search for
Sanskrit Manuscripts during the year 1880 & 1

To this may be added —

- 4 A statement of the total number of MSS hitherto collected and of the use made of them by different scholars

- 4 The first part of the work has been chiefly entrusted to

native agency Dr Buhler left India before the commencement of the travelling season and I

have been prevented by my duties in the College and by the work of cataloguing the numerous MSS acquired during the year from leaving Poona during the cold weather The main result of such inquiries as I was able to make by letter has been the discovery in the Southern Circle of four ancient Jain Libraries which contain a large number of paper and palm leaf MSS In the Northern Circle the native agents employed have made six tours They were specially directed to acquire ancient palm leaf MSS and to search for works of the Maîtrâyaṇiya Śakha of the Yajurveda and of the Paippalâda Śakhi of the Atharvaveda For the former purpose they again went to Cambay and Pathan (Anhilwâd), where this time their labours were very successful and in carrying out the orders for the search of Vedic books they travelled through the districts of Surat Broach Kaira the Garkhari territory and Kathiawar Their endeavours to procure MSS of the Paippalâda Śakhi were fruitless but they succeeded in procuring a considerable number of works of the Saunaka Śakha of the Atharvaveda and of the Maîtrâyaṇiya Śakhi

- 5 With the assistance of a former pupil Mr Paranjpe who is now a Professor in the

2 Preparation of lists and catalogues Kolapur College I have obtained rough lists of the MSS in two

of the Jain Libraries mentioned in the preceding paragraph Of works which would interest Sanskrit scholars generally these lists mention hardly any besides the *Śaṅkayāna* and *Jainendra vyākaraṇas* but they give the titles of many Jain

works which have not yet been met with elsewhere, and it has therefore been considered advisable to arrange for the preparation of accurate catalogues of the contents of these two as well as of the two other libraries which have been discovered. The palm leaf MSS in these Southern collections and some of their paper MSS are written in the Canarese character.

6 In the Northern Circle catalogues were prepared under the supervision of Dr. Bühler of a small private Library and of the large *Samghaya Bhāṇḍār* at Pāthān. Both these Libraries contain only palm leaf MSS: the former 89 and the latter 527. Of the MSS of the smaller Library 26 are dated: the oldest *Samvat* 1186 and the latest *Samvat* 1156. 22 of the dated MSS were written between A.D. 1150 and 1300, one before and three later. Of the 527 MSS of the *Samghaya Bhāṇḍār* 143 are dated: of these the oldest bears the date *Samvat* 1120 and the latest the date *Samvat* 1505. The number of those written during the 14th century of the Christian era (more accurately between A.D. 1290 and 1390) is surprisingly small, a fact which probably may be accounted for by the unsettled state of the country after the fall of Anhilwād in A.D. 1297.

7 However valuable these two collections may be for researches regarding the Jain religion and literature and for the history of Gujrat it is a matter for regret that among the old MSS which they contain only the following (the titles of which are given from the MS list) are likely to interest Sanskrit scholars generally —

- 1 *Anekārthasamucchaya* by Śaśvatā 93 ll. *Samvat* 1240 (copied for Government)
- 2 *Ālankāra-rīti* 305 ll., incomplete.
- 3 *Unādesūtra-rīti* by HEMACHANDRA 155 ll.
- 4 *Kuṭānta rīti-rīti* by TRILOCHANADASA, 288 ll.

8 The catalogue of the palm-leaf MSS in Sāntināth's Bhandār at Cambay, mentioned in last year's report, has, owing to objections raised by the proprietors, not yet been completed

9 The total number of MSS purchased during the year

3 Purchase of MSS is 413, of these 336 are paper, and 77 palm-leaf MSS. Of the paper MSS 229 were collected by Dr Buhler, and 107 by myself. Of the 77 palm-leaf MSS two (Nos 26 and

72) were obtained for Dr. Buhler at Cambay, the remaining 75 come from Pāthan (Anhilwād), and were purchased by me for Government between December and March last.

10 A description of the palm-leaf MSS, as accurate and full as I could make it in the short time at my disposal, is appended to this report. Here I have only to add a few general remarks. The first point which will strike any one who may examine this collection is the great age of the MSS, which it contains. It is well known that few Sanskrit MSS in public Libraries are older than two or three hundred years. The oldest of these palm-leaf MSS, the date of which is absolutely certain,* was written exactly 800 years ago, and I may state in general that all the MSS collected were written during the 11th, 12th and 13th centuries. 20 of the MSS are dated, and the dates given by the writers are —

No 57 Samvat 1138 = A.D. 1081.

Nos 35 and 36 Samvat 1145 and 46 = A.D. 1088 and 89, during the reign of Karnadeva

No 53 Samvat 1176 = A.D. 1119

Nos 41—43 Samvat 1179 = A.D. 1122 during the reign of Jayasingha

No. 58 Samvat 119—(?) = between A.D. 1133 and 42

No. 13 Samvat 1218 = A.D. 1161 during the reign of Kumârapāla

No 8 Samvat 1264 (?) = A.D. 1207 (?) during the reign of Bhīmadeva II

No. 38. Samvat 1294 = A.D. 1237

No 47. Samvat 1300 = A.D. 1243

No 28. Samvat 1304 = A.D. 1247.

No 62. Samvat 1315 = A.D. 1258

No 3 Samvat 1332 = A.D. 1275

* The MS No 7 seems to have been written in Samvat (?) 962, but I cannot be perfectly certain about this, because the last leaf of the MS is much damaged and the writing on it effaced. (See below page 9)

No 60 Samvat 1340 = A D 1283.

Nos 2 and 5 Samvat 1342 = A D 1285

No. 34 Kalyuga 4398 = A D 1297, during the reign
of Râmachandradeva

No 37 Samvat 1359 = A D 1302

11 But the age of the palm leaf MSS is proved, not merely by these dates but also by the interesting fact that in nearly all of them the leaves, in addition to being numbered on the right hand side with the ordinary numeral figures now in use, are also numbered on the left hand side, with the more ancient numerals which have been described by Pandit Bhagvanlâl Indrajî in the Indian Antiquary, vol. VI page 42. The principal of this more ancient system of numeration is this, that separate signs are used for the numerals from 1 to 9 separate signs for 10, 20, 30, &c, up to 90, and separate signs again for the numerals 100 200, 300, &c, and that in combining these signs those for 10, 20 30, &c are placed above those for 1, 2, 3, &c, and those for 100 200, 300, &c, above those for 10, 20 30, &c. E g. 281 is denoted by $\text{२००} \text{८०} \text{१}$

where २०० is the sign for 200, ८० the sign for 80 and १ the sign for 1, 199 by $\text{१००} \text{९०} \text{९}$ where १०० is 100, ९० 90, and ९ 9, 140

by $\text{१००} \text{४०}$ where ४० is 40, 101 by $\text{१००} \text{१}$ &c To my knowledge this system of numeration by means of letters or syllables is never employed in any paper MSS and there are indications that it had ceased to be understood even when these palm leaf MSS were being written

12 In the MSS examined by me the forms of some of these ancient numerals slightly differ from those copied by Pandit Bhagvanlâl from two Jain MSS

The numerals 1, 2, and 3 are denoted by the ordinary numeral figures १, २, and ३.

The sign for 4 is ५, or ५, or (in Nos 20 and 21) ५. As ५ has been supposed to be the *Fihzāmīliya* plus *la* I may state that in No 61 where that sign is used for 4, the *Fihzāmīliya* + *la* are denoted by the ordinary sign ५.

The sign for 5 is everywhere like the ordinary Devanāgarī ५, or (very rarely) ५.

The sign for 6 corresponds generally to ६ sometimes we find ६, or ६, or (very rarely) ६ or ६.

The sign for 7 is either ७ or ७.

The sign for 8 is either ८ or ८ or very rarely ८.

The sign for 9 is generally the old sign for ९ but in one or two MSS the Anusvāra is omitted. The principal forms occurring in the MSS examined are ९ ९ ९ ९ and ९. That the sign for 9 is nothing but the syllable ९, is clear also from the fact that many Sanskrit MSS begin with what looks like ९ but is really the word ९. In most MSS ९ is repeated after the sign ९, because the meaning of the latter had ceased to be understood.

The sign for 10 is १० or more rarely, १०.

The sign for 20 is २० or २०, or rarely २० or २०.

The sign for 30 is ३० or ३०.

The sign for 40 is ४० or rarely ४० or ४० or ४०.

The numeral 50 is denoted by the sign ५० or ५०.

The signs for 60 and 70 are ६० or ६० and ७० or ७०.

The sign for 80 is ८० or ८० or, very rarely ८० in No 61, where the first sign is used the same sign is used for the *Upadhmanīya*.

The sign for 90 is ९० or, very rarely ९०.

The sign for 100 is १००, for 200 २००, for 300 ३००, and for 400 ४००.

13 Some variations from the above are owing to the ignorance or carelessness of the writers. In No 66 the sign ८ is used for 30, and ६ for 80. In No 3 the three first leaves

are numbered स्व, स्ति, and श्री in No 7, 20 and 32, simply
^{१ २ ३}
 स्व, स्ति, and श्री, without the addition of १ २ and ३ in No 24
 the numerals 1, 2, and 3 are *throughout* denoted by स्व, स्ति
 and श्री, e.g. य 15 21, य 22 and य 23 In No 19 the leaves
^{स्व स्ति श्री}
 4 to 9 are correctly marked with the signs given in the preced-
 ing paragraph, but on the later leaves the same numerals are
 denoted by the ordinary numeral figures ४, ५, ६ etc e.g. 67 is
 ६ 109 सु 138 सु &c
^{७ ८ ९}

Finally, it deserves to be stated that in some cases those
 leaves of a MS which happen to be more modern than the
 rest of the MS are numbered only with the ordinary numerals
 * For details see the list of the MSS Nos 4 26 38, &c

14 Notwithstanding their great age many of these
 palm leaf MSS are exceedingly well preserved and I feel no
 hesitation in saying that, with reasonable precautions they
 will last as long again as they have lasted already The state
 in which the MSS were made over to me did certainly not
 indicate that any particular care had been bestowed on their
 preservation yet in most cases the material of which they
 consist shows no signs of decay and the writing is as clear
 and distinct as in the best modern paper MSS These facts
 tend to disprove the generally prevailing notion that MSS
 in India will not last beyond a few centuries and give rise to
 the hope that we may yet discover in the old libraries of this
 country MSS far more ancient than those which have been
 obtained already

When the MSS were first brought to me they formed
 huge bundles of palm leaves in which frequently the leaves
 of one MS were mixed up with those of one or more other
 MSS I have myself examined every single leaf have with the
 help of my assistants put together what belongs together and
 have had the leaves of each MS put between wooden boards
 so as to ensure their preservation and to facilitate their being
 used by other scholars

15 As I have read portions of every MS, I am able to state that nearly all of them have been written with care and are very correct. From the remarks which occur at the end of some MSS it may be inferred that the copyists were well paid and that as long as four or five hundred years ago palm leaf MSS were valuable possessions. Of the MSS in this collection Nos 2 and 5 were purchased in A.D. 1344 for a large sum of money by a certain Mohana and presented by him for the spiritual welfare of his mother to the sage Jinalabdhisuri and No 58 was copied at the expense of a lady and presented by her to the sage Devabhadra. A similar story appears to be told at the end of No 60.

16 The short account of the palm leaf MSS given below will I trust enable others to judge for themselves of their value. I am aware that the collection will chiefly interest those who specially devote themselves to the elucidation of the history of the Jain religion and literature. At the same time I believe that Sanskrit scholars generally will find in it some interesting works which hitherto were either altogether unknown or of which only very modern or incorrect or imperfect copies were accessible.

17 The 356 paper MSS acquired during the year may be classified thus —

1	Veda Samhita, Brāhmana and Sūtra	31 MSS
2	Vedāṅga Upaniṣads Prayogas and similar tracts	117
3	Purāṇa and Mahātmya	12

9	Astronomy and Astrology	7
10	Medicine	1

13	Jaina works not included in the pre- ceding	54 ,

The titles of the works which these MSS contain and the names of their authors the number of leaves of each MS and its extent in Slokas and the dates of those MSS which are dated are given below

18 The number of MSS belonging to the Government collection which are now under my charge amounts to 2904
 4 Total number of MSS
 hitherto collected 35 of these contain works in Sanskrit, Hindi and Persian about one thousand are Jain and the rest Brahminical MSS 81 are palm leaf MSS 68 on Bhurjapattra and the rest on paper

dered to compare favourably with those of former years. That many old and valuable works have been added to the Government collection, is a piece of good fortune but I may say for myself that during the last five months I have devoted all my spare time to the task of properly arranging and cataloguing the MSS collected so as to render them easy of access and useful to my fellow students.

सर्गः ॥ ६१ ॥ मंत्रसंख्यायां श्लोक २८२८ ॥

Leaf 183 is followed by two leaves in a different handwriting which give the contents of the several Sargas.

This poem, composed by Hemachandra in honour of his patron Kumārapāla, is also called *Sabdānusāsana-dvyāśraya mahākāvya*, or simply *Dvāśraya mahākāvya*. Its primary object is to illustrate the rules of Hemachandra's own Sanskrit grammar, and some MSS indicate therefore not merely the end of each Sarga, but also that of each Pāda of the *Sabdānusāsana*. The Palm-leaf MS does this, so far as I have observed only occasionally. Other MSS give names to each Sarga, e.g. अणहिलपत्तनश्रीभूलरामयोर्वर्णनो नाम प्रथमः सर्गः, यमात्मन्यवर्णनो नाम द्वितीयः सर्गः etc.

The following are the first five verses of the poem, taken from a paper MS

अहमित्यक्षरं ब्रह्म वाचकं परमेष्ठिनः ।

I have shown elsewhere that the *Sabdarnavachandrikā* was composed in A D 1205, and feel no hesitation in stating that this MS. of it has been written in the 13th century

302 leaves, a few of which are broken and damaged. The MS. appears to have been written at different times and by two different writers. In what I consider to be the older portion, the writing is smaller and the leaves are numbered with the numeral figures on the right and with letters on the left hand side, the leaves also are slightly narrower, in the more

modern portion the writing is bigger and the leaves are numbered with the numeral figures on both the right and left hand sides. Each page is divided into three columns.

Want of time has hitherto prevented me from examining this work as carefully as I should wish to do. Besides I am in hopes of obtaining additional MSS of it, for which a search is being made. The instances अनु शाकनयन वैयाकरणाः and इति-शाकनयनम् on Foll 96b and 118b, as well as certain technical terms, would seem to show that the work is closely related to the grammar of Sâkatâyana.

The instance अहहदरातीनुगारपालः on Fol 255b proves that the work was composed in the reign of Kumârapâla, between 1143 and 1174 A D.
